SAMUEL OPOKU

Digital Learning Designer | Professional Website

Große Klosterkoppel 8, 23562 Lübeck

01715811680 | gideonsammysen@gmail.com

LinkedIn Profile

Digital Learning Designer combining instructional design theory and practice. Master's in Media Studies and Bachelor's in Education. Develops accessible, learner-centred learning experiences using Articulate 360, Adobe Creative Suite, AI tools, and LMS platforms, with experience in medtech and art/cultural sectors.

SKILLS & COMPETENCIES

Instructional Design: ADDIE | SAM | Bloom's Taxonomy | Adult Learning Theory | Storyboarding | LXD | Curriculum Development
E-Learning Development: SCORM Packaging | LMS Administration | Learning Analytics | Interactive Design | Branching Scenarios | Gamification | Microlearning
Multimedia Production: Photo Editing (Infographics | Posters | Flyers) | Video Creation & Editing
Technical Communication: User Guides | Knowledge-Base Documentation | Cross-Cultural Content Adaptation | Content Localisation

TOOLS & TECHNOLOGIES

E-Learning Authoring & LMS: Articulate 360 (Storyline, Rise) | Moodle
Design & Multimedia: Adobe Creative Suite (Premiere Pro, Photoshop, InDesign) | Figma | Synthesia | Descript | Canva | DaVinci
Web & Development: HTML | CSS | Markdown | API Integration | Prompt Coding
Productivity & Collaboration: Google Workspace | Microsoft 365 (Word, PowerPoint, SharePoint, Teams, Excel) | Notion | Confluence

EDUCATION

Master's in North American Studies (Media Studies) (Grade: 2.3 | Gut) (Oct 2023 – March 2026)
Philipps-Universität Marburg, Germany
Master's Thesis: "AI as Reflection: Human-Technology Relationships in Digital Narratives" AI Live Demo

Bachelor of Education in English Language (Grade: 1.4 | First Class Honours) (Oct 2018 – Oct 2022)
University of Cape Coast, Ghana
Bachelor's Thesis: "*The Box-Part-Letter Method*: A Structured Approach to Handwriting Instruction"

PROFESSIONAL EXPERIENCE

Instructional Designer (Freelance) (Aug 2026 – Present)
Node Center for Curatorial Studies, Berlin
- Translates subject-matter input into structured, learner-friendly content, applying instructional design principles to a specialist, non-technical audience
- Designs and develops interactive and scenario-based e-learning modules in Articulate Rise for museum and curatorial staff
- Designs formative and summative assessments, including quizzes and practice tasks, that are aligned to learning objectives
- Manages iterative stakeholder review cycles, translating feedback into refined tone, structure, and visual design

E-Learning Developer (Intern) (Feb 2026 – July 2026)
Dräger, Lübeck Reference DE | Reference EN
- Delivered 14 projects in 6 months, 7 of them e-learning modules with video (Articulate Rise, Premiere Pro), from shoot to final cut for global medical and safety equipment training
- Storyboarded 2 PowerPoint trainings, restructuring them to Corporate Identity standards and rebuilding graphs and infographics
- Documented 5 instructional video shoots with subject-matter experts, structuring the content in instructional design format
- Produced multilingual versions of e-learning modules with AI translation tools, matching the tool to the content type and reviewing technical accuracy

Digital Learning Designer (Intern) (June 2025 – Nov 2025)
Tanz der Kulturen e.V. Hamburg | Certificate | Reference
- Designed 25+ accessible multimedia learning assets (infographics, promotional materials), using Figma, expanding reach to diverse learner groups
- Curated and structured 50+ educational resources for multicultural art pedagogy, supporting 200+ international, community, and ERASMUS learners
- Localised 300+ pages of German instructional content (E.g., *Rituelle Tanz Pädagogik* book) into English using AI-assisted translation, preserving natural flow

English Language Teacher & Administrative Assistant (Jan 2023 – Oct 2023)
Ghana National Service Scheme, Kumasi | Certificate
- Designed and delivered English lessons and managed administrative tasks, including student records, scheduling, and correspondence.

PORTFOLIO HIGHLIGHTS

Microlearning Projects:
- Say It Well, Hear It Well: Feedback at Work: A custom-authored interactive module on giving and receiving feedback, with a live AI feature.
- AI Literacy for Non-Technical Employees: 7-minute interactive video on using AI for work tasks and reviewing outputs with human judgment
- Successive Approximation Model (SAM) for Instructional Designers: Scenario-based module applying SAM phases to turn a slide deck into e-learning

E-Learning Projects:
- Cybersecurity Essentials for Every Employee: Phishing, passwords, MFA, data handling, incident reporting
- Combating Climate Change: A Collective Responsibility: Causes, impacts, and actions for individuals, organisations, and citizens

Professional Projects (Available on Request)
- Dräger: Product and sales training modules for medical systems
- Node Center: E-learning modules for curatorial staff

CERTIFICATIONS & TRAINING

- Instructional Design Foundations & Applications – University of Illinois Urbana-Champaign (Aug 14, 2025)
- Technical Writing Course – Board Infinity (April 2, 2025)
